Preface	xii
1 Data Analytics in Finance: Introductory Case Studies	1
1.1 Data Analytics Using MATLAB®: Case Studies.....	2
1.2 Data Analytics Using Python: Case Studies	7
1.3 Data Analytics Using R: Case Studies	12
References	15
2 Data Analytics in Finance: Tools and Platforms	17
2.1 Tools.....	17
2.2 Platforms	19
References	26
3 Data Analytics in Investments	27
3.1 A Data Analytic Approach to Forecasting Daily Stock Returns in an Emerging Market	28
3.2 Data Analytics in High-frequency Trading	33
3.3 Data Analytics in Property Market Investments.....	36
3.4 Financial Market Volatility Forecast based on High Frequency Data	37
3.5 Data Analytics in Order Imbalance.....	40
3.6 Credit Spread Approximation and Random Forest Regression	41
3.7 Deep Learning Techniques in Investment Risk Management.....	43
3.8 Enterprise Content Risk Management and Digital Asset Risk Management.....	48
3.9 High-Frequency Excess Returns via Data Analytics and Machine Learning	50
3.10 Data Analytics and Hedging Strategies	53
3.11 Deep Q-Trading Analytics	55
3.12 Long Short-Term Memory Neural Networks.....	57
3.13 News and Sentiment Analysis in Predicting Volatility.....	59

3.14	Gaussian Process-based Algorithmic Trading.....	61
3.15	Strategy Replication and Genetic Algorithm	64
3.16	An Analysis of Price Impact Functions of Individual Trades	66
3.17	Measuring the Quality of Data Analytics Predictions	67
	References	69
4	Data Analytics in Consumption Finance	71
4.1	Operational Risk and Credit Portfolio Risk Assessment with Copula.....	72
4.2	Data Analytics on Enterprise Credit Risk Evaluation of E-Business Platform.....	74
4.3	Data Analytics and Discrimination	78
4.4	Data Analytics and Loan Loss Provisions	79
4.5	Data Analytics and Microfinance.....	82
4.6	Loan Evaluation in Peer-to-peer Lending	84
4.7	Risk Evaluation in Consumption Finance Private Lending	88
	References	89
5	Data Analytics in Corporate Finance.....	91
5.1	An Accounting Information Systems Perspective on Data Analytics	92
5.2	Data Analytics and Firm Performance.....	94
5.3	Data Analytics and Intellectual Capital.....	97
5.4	Data Analytics and Management Accounting	98
5.5	Management Accounting and Generative AI.....	101
5.6	Data Analytics and the Quality of Firm Decision Making.....	105
	References	107
6	Data Analytics in Financial Services and Banking.....	109
6.1	Financial Services and Judge System Events: A General Overview ...	110
6.2	Data Analytics for Supply Chain Relationship in Banking.....	111
6.3	Predictive Analytics for Social and Environmental Performance Improvement	113
6.4	Computational Approaches in Financial Services	115
6.5	Data Science and AI in FinTech: Three Case Studies.....	118
6.6	Internet Finance Case Studies	123
6.7	Genetic Algorithm Based Model for Optimizing Bank Lending Decisions	126
6.8	Banking Risk Management	128
6.9	Bank Networks from Text: Interrelations, Centrality, and Determinants	131
	References	134

7	Data Analytics in Insurance.....	136
7.1	A Data-Analytic Method for Forecasting Next Record Catastrophe Loss	137
7.2	A Standards-Based Ontology for Data Analytics in the Insurance Industry	138
7.3	Data Analytics on Driving Behavior Analysis.....	139
7.4	Usage-Based Insurance: A Contextual Driving Risk Modeling	141
7.5	Fraud Detection in Healthcare Insurance Claim Using Machine Learning.....	144
7.6	Asset Liability Management Model with Decision Support System for Life Insurance Companies.....	146
7.7	Big Data and Actuarial Science	148
7.8	Insurance Customer Profitability Forecasting.....	150
7.9	Trustworthy Use of Artificial Intelligence in Health Insurance	150
7.10	Data Analytics, Commercial Claims, and Policy Prices.....	153
7.11	Predictive Analytics of Insurance Claims Using Multivariate Decision Trees	155
7.12	How Data Analytics Helps with Detecting Insurance Discrimination and Adverse Selection	157
7.13	Commercial Insurance Risk Decision Analysis and Neural Network Algorithm.....	159
7.14	Data-driven Analytics and Cargo Loss	161
	References	162
8	Data Analytics in Auditing	164
8.1	Data Analytics and Cognitive Errors on the Audit Judgement	165
8.2	Automated Clustering for Data Analytics.....	166
8.3	Data Analytics in Financial Statement Audits	171
8.4	Data Analytics for Internal Auditors.....	173
8.5	Internal Audit from a Global Perspective.....	175
8.6	Data Analytics under Inspection Risk	178
8.7	Multidimensional Audit Data Selection (MADS)	180
8.8	Interactions Among Auditors, Managers, Regulation, and Technology.....	183
	References	185
9	Data Analytics in Policy and Government.....	187
9.1	Data Analytics for Government, Society, and Policymaking	188
9.2	Government Data Analytics for Firms' Vulnerabilities to Crisis	191
9.3	Regulators Data Analytic Approach for Manipulation Detection in Stock Market	192
9.4	Data Analytics in the Frequency Domain	194

9.5	Visual Analytics and Financial Stability Monitoring	197
9.6	Time-resolved Topological Data Analysis of Market Instabilities ..	198
9.7	Using Spillover Index Approach to Measure the Role of Policy	199
9.8	Data Analytics Methods for Equity Similarity Prediction and Policy Implications	201
	References	202
10	Data Analytics in Real Estate.....	204
10.1	Data Analytics Visualization for Real Estate Industry	205
10.2	Data Analytics in Real Estate Risk Studies in Lodging C-corps and REITs	207
10.3	Data Analytics in Real Estate Price Prediction	211
10.4	Data Analytics Smart Real Estate and the Disaster Management Life Cycle.....	213
10.5	Data Analytics in Real Estate Business: A University Lab Practice...	217
10.6	Data Analytics in Residential Housing Price Prediction	218
10.7	Data Analytics and Real Estate Bank Capital	220
10.8	Interpretable Machine Learning for Real Estate Market Analysis...	222
10.9	Investing in International Real Estate Stocks.....	224
10.9.1	DataStream Global Indices	224
10.9.2	LIFE Global Real Estate Securities Index.....	224
10.9.3	MSCI Property Index	224
10.10	Latent Semantic Analysis and Real Estate Research.....	225
10.11	Decision Trees in Real Estate.....	227
10.12	Performance Measurement in Corporate Real Estate (CRE)	229
	References	230
11	Data Analytics in Risk Management.....	232
11.1	Systemic Risk	233
11.2	Data Analytics in Corporate Real Estate Risk Management.....	237
11.3	Data Analytics Used in Financial Risk Analysis for Agriculture and Environmental Studies.....	239
11.4	Network Models in Financial Risk Analysis	242
11.5	Constant Elasticity Model (CEV) Used in Pricing Volatility.....	244
11.6	Multi-agent Financial Network (MAFN) Approach in Systemic Risk Analysis	246
11.7	Further Discussions about Operational Risk Management.....	248
11.8	Estimation and Inference in Financial Risk Networks.....	251
11.9	Using CAR-VECM to Model Financial Risk Contagion.....	254
11.10	Non-Performing Loan Default Risk Analysis	257
11.11	Decomposing Value-at-Risk and the Relationship with Trading Rule	258
	References	260

12 Data Analytics in Fraud Detection.....	261
12.1 Introduction to Fraud Detection	262
12.2 Data Analytics Tools and Methods.....	263
12.3 Skimming and Cash Larceny	267
12.4 Billing Schemes	269
12.5 Check-Tampering Schemes.....	271
12.6 Payroll Fraud Scheme	272
12.7 Expense Reimbursement Schemes	274
12.8 Register Disbursement Schemes	275
12.9 Noncash Misappropriations, Corruption, and Money Laundering Schemes.....	278
Reference	283
Index	285
