8	Introduction
---	--------------

---

12	The Generation of Founders (1950s and 1960s): Between Functional Structuralism and Historical Materialism	
16	Sovietisation of the Academy and Ideologisation of Research	21 From an Ethnographic Cabinet to an Ethnographic Institute
18	Fight against Bourgeois Nationalism and Reactionary Ideologies	23 Scientific Programme in the 1950s and 1960s
19	Ideological Punishment—The Loss of Sovereignty	

---

34	The Generation of Builders (1970s and 1980s): The Normalisation Period and Real Socialism	
38	Scientific Programme in the 1970s	53 Encyclopaedia of the Folk Culture of Slovakia and Central Plan of Basic Research
41	Establishment of a New Journal—Platform for Discussions and Information Sharing	58 International Committee for the Study of Folk Culture in the Carpathian Region and in the Balkans
45	The Ethnographic Atlas of Slovakia—The Era of Large Syntheses and Collective Works	

59	Basic Communist Party Organisation (1970s and 1980s)—Memory Reflections of the Witnesses	68	Continuity in the Macro-Change
66	Collective Energy and Willingness to Spend Time Together	70	The 1990s as a Post-Scriptum in the Life of the Generation of Builders
74	<b>The Transformation Generation (1990s and 2000s): The Post-Socialist Transition Period</b>		
77	Liberalisation of Scientific Research and Restructuring of the System of Support	137	Management and Restructuring of the Institute during the First Transformation Decade
82	The First Transition Decade—Post-Socialistic Restructuring	143	Teambuilding and Spending Time Together
82	'The Velvet Revolution' within the Institute—Ruptures in the Micro-Picture	152	The First Transformation Decade—Continuity, Search, and Experimenting
87	Freedom of Scientific Research—Discussions and New Horizons	156	The Second Transition Decade—Anthropologisation and Internationalisation
91	The Scientific and Research Programme during the First Transformation Decade	157	The 'Struggle' for the Scientific Concept and for the Way of Managing and Directing the Institute
98	Journals' Policy in the Transformation Period	163	The Scientific Concept of the Second Transformation Decade—Anthropologisation of the Institute
100	Transformation of Fundraising—Project and Publication Activities	167	Internalisation of External Milestones—Self-Reflection
107	New Horizons: International Cooperation, Project Writing	170	Internal Consolidation of the Institute and Performance Evaluation
114	Transformation of the Support of Science—Amateur Fundraising	173	Personnel and Qualifications Structure of the Institute
117	The Willingness to Do Things Together—Transformation of the Style of Work and Leadership	177	Journals Published by the Institute during the Transformation Period
121	Computerisation of the Building of Scientific Collections	183	PhD Studies, European Doctorate, and Pedagogical Activities
125	Relocation, Funds Reduction, and Restructuring of the Institute	190	Financial Resources in the 2000s
131	Transformation Exchange and the Overlapping of Generations	192	International Projects and Cooperation
135	The Clash of Generations—Discussion Platforms and Dialogues	197	The Most Important National Projects

200	Digitisation and Electronic Archives	222	The Case of 'Rómsky dejepis'—The Power of Cohesion
201	The Cultural Heritage Topic and Its Application	228	The External Perspective—Accreditations in the Second Transformation Decade
204	Research Trends in the Second Transformation Decade	239	Implementation of Accreditation Recommendations
211	Religious Studies—the Rising Star of the Second Transformation Decade	242	The Willingness to Work and Spend Leisure Time Together
214	Infrastructure	245	Successes and Challenges of the Second Transformation Decade
215	Information and Documentation Section		
218	Start of Applied Research and Engaged Anthropology		
<hr/>			
250	<b>The Generation of Innovators (2010s): Completing the Building of Social Anthropology, Returning to Qualitative Ethnography</b>		
256	Competition for the Post of Director in 2012—The Reconciliation of the Generations and the Beginning of the Innovation Period	304	Reviewing the Proportion of the Teaching Workload
261	International Accreditation of the Institute 2012	306	The Institute's Doctoral School during the Innovation Decade
263	Results of the 2012 Accreditation	310	Innovations in the Personnel Policy: Generational Change without Ruptures and Reduced Performance
269	Major Management Innovations	315	Internal Structure
272	The Long Decade of the Unsuccessful SAS Transformation	319	Anthropological Turn: An Attempt to Achieve Exclusivity of the Cognitive Approach at the Institute
281	The Scientific Concept of the Innovation Decade	323	First International Accreditation 2016—An External Mirror and Strategic Navigation
285	The Jubilee Year 2016: 70 Years of the Institute	327	The 2020s: Change of the Financial Ecosystem—Performance Evaluation, Wage Reform, and Change of the Legal Form
289	Internal Challenges: Dislocation, Reconstruction, Rescue of the Collection and Library Stocks	335	Strategic Planning and Performance Evaluation—Innovative Internal Formats
293	Innovations in the Information and Documentation Unit, Digital Humanities, and European Infrastructure	341	Research, Thematic Integrity, and Innovations
300	Transformation of the Slovenský národopis Journal into an International Registered Journal	344	Increase of Grant Resources and Slovak Research and Development Agency Projects

347	Strong Emphasis on Popularisation—Continuity with Previous Generations	386	Conclusion— <i>Laudation</i> to the Institution and Generations
348	Entering Europe—International Projects and Networking	396	Post-Scriptum: Story of the Story of Cohesion
353	Romani Studies: A Supernova of the Innovation Decade	402	References
356	Promotion of and Innovations in Applied Research	426	Personal Index
361	Election of the Director 2016 and 2020—The Clash and Communication of Generations	430	List of Abbreviations
365	Scientific Concept 2021–5		
369	International Accreditation 2022		
375	Verification of Excellence in Research—New Central Evaluation of Science and Research		
377	Spending Time Together—The Internal Power of Cohesion		
382	Innovation Decade—Summary and Evaluation
