About the Authors xii

Prologue 1
Technological Evolution 5

PART ONE

1 The Battle for AI Dominance 13
The First Battle: Vertical Integration 19
The Second Battle: Private Data 23
The Third Battle: Artificial General Intelligence (AGI) 26
Possible Paths Forward 27
Centralised AI (Private) 28
Centralised AI (Government) 28
Federated AI 28
Decentralised AI 29

2 AI Uptake Limitations in Business 33
The Cult of the Expert 35
Other Recognised Hurdles to AI Uptake in Business 38
Successful AI Integration in Business 40
Nvidia's Activity Across the AI Stack 40
Tesla's Activity Across the AI Stack 41
Pfizer's Activity Across the AI Stack 42
Engineering & Advertising 43

3 Users or Partners of AI 47
Anthropomorphising AI for Better Partnerships 48
Which AI? 51

Partnership & Prompt Engineering 53
Value-Based Partnership with AI 55
Curiosity and the Great Divide 62

4 Data Partnerships and Corporate Control **65**
Understanding Private Data 66
Business Model Options 68
Do Nothing with Private Data 69
Licence Your Private Data 69
Create Closed Fine Tuning on top LLMs 70
Legal & Ethical Considerations in Data Sharing 78
Extinctionists Versus Expansionists 81

PART TWO

5 The Changing Nature of "Work" **87**
Long Overdue Evolution 91
Marginal Gains Versus Big Differences 93
What Is Intelligence? 94
Types of Intelligence and "Lines of Development" 97
The Rise of the Polymath 104
The Future of Work 106

6 Consciousness, Identity, and Sentience **111**
Kelly's Story 112
The Foundation of Intelligence 116
Consciousness 117
Identity and Sentience 121

7 The Seven Accelerants of Change **137**
Pushing Past Speed or Safety 138
Seven Forces for Accelerated Development 140
A Map of the Terrain 141
Differentiation and Labelling 145
World Centric Thinking 146
Shifting Demographics 148
Emergence from the Green Swamp 151
Exponential Nature of Change 153
AI Itself 154
Key Shifts 156

PART THREE

8 AI & Web3 Level Up Relationships 161
Cooperation & Competition 166
Web3 167
Changing the Nature of Business 171

9 Human-AI Symbiotic Collaboration 177
Deliberately Developmental 179
The Role of Polymaths & Quarterbacks in Our Collaborative Future 179
Team Development Delivers Greater Collaborative Capability 182
Network Analysis 187
Integrated Decision Making 188
Leadership to Stewardship 190

10 Toward Collective Consciousness 193
The Wisdom of the Crowd 194
The Hive Mind 196
Unleash Crowdocracy with AI/Web3 198
Sentience Is the Solution Not the Problem 201

Epilogue: The Future 207
2030: The Age of AI Augmentation 207
2040: The Age of AI Liberation 209
2050: The Age of Trans-forms 210
