

## NOTES ON INTUITIONISTIC FUZZY SETS

VOLUME 25 2019 NUMBER 4

## CONTENTS

|                                                                                                                                                                                                          |       |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| <b>On the intuitionistic fuzzy implication <math>\rightarrow_{191}</math></b><br>Krassimir T. Atanassov .....                                                                                            | 1–6   |
| <b>Handling augmented appraisal degrees from multiple perspectives<br/>with the universal operator <math>X_{a,b,c,d,e,f}</math></b><br>Marcelo Loor and Guy De Tré .....                                 | 7–20  |
| <b>Some remarks on n-uninorms in IF-sets</b><br>Martin Kalina .....                                                                                                                                      | 21–29 |
| <b>Interval-valued intuitionistic fuzzy sets over universes with special forms</b><br>Krassimir Atanassov and Peter Vassilev .....                                                                       | 30–36 |
| <b>Individual ergodic theorem for intuitionistic fuzzy observables<br/>using IF-probability</b><br>Katarína Čunderlíková .....                                                                           | 37–47 |
| <b>Fixed point results in non-Archimedean generalized intuitionistic fuzzy<br/>metric spaces</b><br>M. Jeyaraman, M. Suganthi and S. Sowndrarajan .....                                                  | 48–58 |
| <b>On the index matrix representation of intuitionistic fuzzy multigraphs</b><br>Anthony Shannon, Tania Pencheva and Krassimir Atanassov .....                                                           | 59–66 |
| <b>InterCriteria Analysis applied to data from Euro Health Consumer Index<br/>for comparing the healthcare systems' performance in time</b><br>Veselina Bureva and Nikolay Andreev .....                 | 67–77 |
| <b>InterCriteria Analysis of body composition measurements data, associated<br/>with obesity among college students</b><br>Simeon Ribagin, Antoaneta Grozeva, Gergana Popova and Zlatina Stoyanova ..... | 78–82 |
| <b>InterCriteria Analysis of data from intellectual and physical evaluation tests<br/>of students practicing sports activities</b><br>Simeon Ribagin and Spas Stavrev .....                              | 83–89 |
| <b>Intercriteria analysis applied to university ranking system of Turkey</b><br>Gökhan Çuvalcıoğlu, Veselina Bureva and Alžbeta Michalíková .....                                                        | 90–97 |

“Notes on Intuitionistic Fuzzy Sets” is an international scientific journal, specialized in the theory and application of intuitionistic fuzzy sets and logics as an interdisciplinary field at the cross point between mathematics and engineering sciences.

Published regularly as of 1995, Notes on Intuitionistic Fuzzy Sets is the first and one of the leading scientific journals, exclusively publishing research in this field of science, as defined by the strict journal's scope and the editorial policy. Created in 1983 in Bulgaria by **Prof. Krassimir Atanassov**, the area of intuitionistic fuzzy sets has gained worldwide popularity and today it is being investigated by many international research groups from universities and research centres in Australia, Belgium, China, Greece, India, Morocco, Poland, Portugal, Romania, Slovakia, Spain, Turkey, United Kingdom, and other countries.

The journal is one of the official journals of the Institute of Biophysics and Biomedical Engineering of the Bulgarian Academy of Sciences. It is printed in the Academic Publishing House "Prof. Marin Drinov" under Print ISSN 1310-4926 and Online ISSN 2367-8283 and its contents is fully accessible online, free of charge from the website:

<http://www.ifigenia.org/wiki/NIFS>

Since 1997, the Journal has been hosting the proceedings of the International Conference on Intuitionistic Fuzzy Sets, organized on annual basis in Sofia or Burgas, Bulgaria. It has published also the proceedings of international workshops and conference on intuitionistic fuzzy sets, conducted in Slovakia, Turkey and Morocco.

All papers and conference reports in Notes on Intuitionistic Fuzzy Sets undergo a rigorous process of review before being accepted for publication. The editorial boards of the journal is international with representatives from Australia, Belgium, Bulgaria, France, Germany, India, Mexico, Poland, Romania, Slovakia, United Kingdom, USA, who are renowned specialists in the area of fuzzy and intuitionistic fuzzy sets and logics. At least three positive blind peer reviews are required by three independent reviewers.

### EDITORIAL POLICY

Manuscripts are addressed to one of the Editors-in-Chief who review them in consultation with a member of the Editorial board in order to decide whether the paper will be further considered for publication in the "Notes on Intuitionistic Fuzzy Sets". Manuscripts are then either returned to the corresponding author or subjected to peer review by an independent referee. At least three positive blind peer reviews are required by three independent reviewers.

Papers are considered for publication only in case that they contain substantially new material, which has never been published, nor concurrently submitted elsewhere.

### JOURNAL SPONSOR

Journal "Notes on Intuitionistic Fuzzy Sets" is published with the financial support of the National Science Fund of Bulgaria, Grant No. KP-06-NP-19/2018.
